

# GLACIERS ENTREPRENEURSHIP PROGRAM

## PROGRAM SUMMARY:

Glaciers Italian Ice was founded to keep our youth safe, educated, and employed. Our entrepreneurship program is a viable solution for Atlanta's infamous "Water Boyz". Our youth entrepreneurship program implores a screening process where youth undergo an intensive mentoring program where they learn the Glaciers Italian Ice key principles: Hard Work, Humility, Honesty, and Hospitality. We wish for our youth to grow with our company becoming owner operators as they master budgeting, communication, and time management skills.
